

**As part of AIRFEST 2017 the
Experimental Aircraft Association (EAA) Young Eagles
Program will take flight in Paso Robles**
Saturday August 26, 2017 at 9:00 AM -3:00 PM

- Have you ever wondered what your neighborhood looks like from the sky? Or maybe you're curious how airplanes even work. You might even dream about being a pilot. If you're nodding your head "Yes" and are between the ages of 8 and 17, you're ready to take a free Young Eagles flight and see what real pilots do on the ground and in the air.
- Since 1992, more than 2 million Young Eagles have enjoyed a flight from EAA's network of volunteer pilots. For many, it was the start of their journey to becoming a pilot, aircraft mechanic, air traffic controller, or many other aviation career possibilities.
- On Saturday Aug. 26, 2017, members of EAA Chapter 465 of Paso Robles will provide free flights to introduce young people to aviation at the Paso Robles Airport. Flights will originate from the vicinity of the airport terminal, commencing at approximately 9 to 10 am, weather permitting. A parent or legal guardian will be required to sign a permission form prior to the flight.
- After the flight, the Young Eagle will get a signed personal logbook and free access to Sporty's Learn to Fly Course (\$199 value), first flight lesson (\$120 value), admission to 300+ science and technology museums, Academy of Model Aeronautics Student Membership, electronic copy of *EAA Sport Aviation* monthly magazine, and access to valuable flight training awards, education scholarships, and Air Academy camperships.
