

**PHIL CORMAN**

# YOUNG EAGLES

On May 19<sup>th</sup>, EAA Chapter 465 conducted another full day of Young Eagles, led by Bill Siegel and his amazing team of volunteers. The day started out with the usual “May Gray”, but cleared pretty early with the remainder of the day resulting in “Severe VFR” for the kids.

We had 6 airplanes show up from C-172s to a Piper Saratoga and Darrel Radford anchored the planes with his beautiful Cessna taildragger, pictured to the right. All the pilots gave detailed pre-flight information which the kids loved. Most of the kids were getting their first airplane ride at this event. As you know,

Boeings and AirBus do NOT count as a real airplane ride.

Thanks to the pilots: Bill, Kendall, Chris, Darrell, Marc and Jim for volunteering their time and planes to this great event. And thanks also to the ground crew Linda, Luke, Ron, Ralph, Steve, Dave, and me!
